(850) Transaction Set**

EDI IMPLEMENTATION GUIDE

X12 VERSION 4010

September 2, 2008

Document Status

Document Number	eToys 850 4010 IG 1_0
Version	1.0
File Name	Purchase Order 850 – EDI Implementation Guide
Issue Date	June 12, 2003
Owner	David Ricci
Description	An EDI Implementation Guide for eToys Purchase Order

Document Revision History

Version #	Date	Author's Name	Revisions Made
1.0	09/02/2008	Alex Danilov	Added eToys SKU in PO1_10/11

eToys Purchase Order Processing Requirements & Implementation Procedures

- The 850 Purchase Order will meet ANSI X12 standards, and follow VICS conventions as closely as possible (see section called ANSI X12 EDI Transaction Set Mapping).
- **The 850 Purchase Order will be sent daily to the VAN at 8:00 PM EST.**
- High priority expedited Purchase Orders will be sent throughout the day as required by business needs.
- The Purchase Order Number (BEG02) will be a unique number which must be returned on all specified transactions (except the 997 Functional Acknowledgment), and will be referenced on all transactions relating to the order.
- The PO Line Item Number (PO101) should be returned on all transactions with line item information.
- At least one transaction must be received and processed without error before the vendor can move to Production status.
- This arrangement may be modified at eToys' discretion based on the specific circumstances of the testing period.
- When a vendor begins receiving the 850 Purchase Order with the Production indicator in ISA15, "P", only EDI orders should be accepted. Phone and fax orders should no longer be accepted unless otherwise notified by eToys EDI personnel.

Note: If problems or errors arise in your EDI transactions AFTER you are moved to production status, you will be notified and expected to take corrective action immediately.

Purchase Order (850) Transaction Set ANSI X12 - Version 004010

This standard provides the format and establishes the data content of a Purchase Order (850) transaction set. A purchase order transaction set provides for customary and established business and industry practice relative to the placement of purchase orders for goods and services. This transaction set should not be used to convey purchase order changes, or purchase order acknowledgment information. The following pages provide a layout of the 850 information necessary to receive orders from eToys.

Segment Summary

Header Area

Segment ID	Loop	Segment Name
ST		Transaction Set Header
BEG		Transaction Set Purpose, PO Type, PO Number, and PO Date
REF		eToys-Assigned Vendor Number
REF		Letter of Credit Number
PER		Buyer's Name and Phone Number
FOB (multiple occurrences)		Shipment Method of Payment
SAC (multiple occurrences)		Service, Promotion, Allowance, or Charge Information
ITD		Terms of Sale
DTM		Cancel After Date
N9 -----+		Reference Identification
MSG -----(multiple occurrences) -----+		Notes/Special Instructions for the PO
N1 -----+		Ship-to Distribution Center
N3		Ship-to Address
N4 -----+		Ship-to City, State, Zip Code

Detail Area

Segment ID	Loop	Segment Name
PO1-----+		Purchase Order Line Item Number, Item Quantity, Unit Price, and Buyer's Catalog Number, UPC Code
PID (multiple occurrences)		Product/Item Description
PO4		Item Pack Configuration (Inner Pack Quantities)
REF		PO Close Out Indicator
DTM		Requested Delivery Date
DTM -----+		Requested Ship Date
