ACADEMICS

- ✓ BTech in Electrical and Electronics Engineering from SKCET/JNTU Hyderabad, India.

Year: 2002-2006.

PROJECTS PROFILE

I

Project : **SONY Europe EDI/EAI developement**
Duration : **June2012 – Till date**
Roll : **Team Lead / Technical specialist**

Project Profile:

This is a development project for EDI and EAI applications of Sony Europe using sterling Integrator. I am responsible for developing new and enhancements of BPs, Maps and TP and testing them in the system. Also need to do peer review and mentor team members on technical aspects and help managers by preparing weekly reports and driving organization process.

Typical Daily Tasks

- ✓ Involved in Designing new Integrations
- ✓ Involved in Trading partner setups
- ✓ Involved in Map development
- ✓ Involved in BP development
- ✓ Involved in creating AS2 , SFTP , CD protocols
- ✓ Involved in Discussions with Customers for requirement gathering
- ✓ Testing Interfaces with SAP and outside partners.
- ✓ Peer reviews

II

Project : **Mapping projects for several Clients in Sterling Commerce**
Duration : **March 2010 – Oct 2010 and May 2011 – June2012**
Role : **Mapping Consultant**

Project Profile:

Sterling Commerce has a mapping team which does mapping projects using SI for several Clients, I was involved in mapping projects during the above mentioned duration of several Clients like Kennametal, UCI, Watts Regulator, Micron etc.

The projects involved development of new maps (both Inbound and Outbound maps) using GIS/SI mapper with X12,EDIFACT,IDOC,XML,Positional Flat file structures for the following cases

- ✓ Migrating maps developed by Other Tools like WTX, See burger , Inovis to GIS maps
- ✓ Migrating Gentran UNIX VMP, AI maps to GIS maps.
- ✓ Migrating Gentran Windows maps to GIS maps
- ✓ Upgrading the maps developed in Lower versions of GIS mapper to Higher Version

The process Involves Map development, MRS creation, Testing and Review.

III

Project : **DSV EDI support in Sterling Commerce**
Duration : **Oct 2010 to May 2011**
Role : **EDI Support Analyst**

Project Profile:

DSV is a European leader in Global Transportation and Logistics. DSV has its EDI application on Gentran: Server for UNIX and party on Gentran Integration Suite. We have involved in offshore support and maintenance of EDI application in Denmark timings

Typical Daily Tasks

- ✓ Involved in EDI production support from offshore and handles the errors like Translation compliance errors, Communication channel failure errors, no Routing found errors.
- ✓ Debugging VMP maps and giving the resolutions for User's queries and suggesting changes to development team if required.
- ✓ Testing the changes made by Development team for the fixes suggested by us
- ✓ Daily maintenance tasks on Gentran and GIS like watching the error folder and halted BPs and fixing if it is in team scope else escalating to development team
- ✓ Traversing throughout the EDI system as well as Internal Applications(Cargo link,LWS) for missing files
- ✓ Creating partner setups in Gentran UNIX.

IV

Project : **Navistar EDI and Mianframe support in IBM**
Duration : **April 2007 – Feb 2010**
Role : **Application Programmer**

Project Profile:

Navistar Inc. is a USA based Truck and Engine manufacturing Company. It has 7 Truck plants, 2 Bus plants, 2 engine plants across USA. It has more than 1700 Trading Partners, exchanges data in EDI (X12) standard. We have involved in offshore support and maintenance of EDI applications (Inovis TLE windows) as well as Mainframe applications.

Typical Daily Tasks

- ✓ Involved in EDI & Mainframes production support from offshore and handles the errors like EDI Translation compliance errors, production abends of JCL programs
- ✓ Creating partner setups in Inovis TLE 6.1.
- ✓ Created mailbox setups in Inovis TLE 6.1.
- ✓ Interacting with Customers and EDI coordinators on EDI development activities
- ✓ Traversing through the system for missing files or any production issues.
- ✓ Developing the Mainframe programs in Cobol , DB2 for enhancements
