**G70**

G7001 (pack) (6 digits)

G7002 (size) (8 digits)

G7203 (unit of measure) (we use standard abbreviations)

*(G68, G69, G70 are included for each item ordered)*

**Allowances/Charges (off-invoice amounts, bill-back amounts, freight charges):**

**G72**

G7201 (allowance/charge code) (80 and 90 are typical; 80 means "combination performance and non-performance"; 90 means "performance allowance")

G7202 (allowance/charge handling code) (01 and 02 are typical; 01 means "bill back"; 02 means "off-invoice")

\*

\*

G7205 (allowance/charge rate) (we do not use leading zeroes; if the number

contains a decimal, the decimal is shown with four decimal places)

*(There may be more than one G72 segment associated with a single item.)*

**Total Purchase Order:**

**G76**

G7601 (quantity ordered) (9 digits)

G7602 (unit of measure) (CA is norm)

G7603 (weight) (we use 10 chars including decimal; if figure contains a decimal, the decimal is shown with 2 decimal places)

G7304 (unit of measure) (LB is norm)

\*  
\*  
\*

G7308 (amount) (15 digits; contains implied decimal with 2 decimal places)

**Additional Header segment to be added effective April 27, 2005:**

**NTE**

NTE01 (reference code; we'll send the letters DEL to indicate a delivery related Note follows in the 02 element)

NTE02 (delivery related message; a string that will say something like, "FOR DELIVERY DIRECTIONS PLEASE CALL 518-379-9999". It is not critical that you do so immediately, but it would be to your company's advantage as well as ours that you include this string on the paperwork your delivery drivers receive related to the delivery of our orders.
