

# — 214 Transportation Carrier Shipment Status —

Federated Department Stores, Inc. (FDS)  
VICS Document Mapping

VICS Version 3060  
Revised 6/98

The following is an outline of what is expected when receiving VICS 214 inbound transportation carrier shipment information from a carrier. For a definition of the segments, please see the VICS retail industry conventions and guidelines for EDI.

Deviation from the standard VICS 214 format described herein may negate our ability to receive data from carrier trading partners.

The following segments are based on VICS 3060. Refer to individual manuals for differences in standards. If you need assistance with this mapping, or to test this document, please contact the FASST office at (973) 872-6115.

Only generate a new 214 transmission when any of the Q501 status codes are updated.

<p><b>Note:</b> Functional Acknowledgments will be sent for all documents transmitted to Federated by vendors.</p>
